## Parents: Register to View Your Child's Activity in Schoology and Scores in PowerSchool

Oxford City Schools uses Schoology, a learning management system that enables our students, parents and teachers to view learning materials and student scores anytime and anywhere. For K-4 students, all scores are not reflected in Schoology. Parents may see some scores that are partial pieces of evidence that are collected throughout the nine-week period for progress reports.

In addition, we use PowerSchool Student Information System to store all official student information, including attendance and grades. Official and final scores are recorded in PowerSchool. You will need the following information to create separate accounts for Schoology and PowerSchool Parent Portal:

- Schoology Parent Access Code
- PowerSchool Parent Portal Access ID
- PowerSchool Parent Portal Access Password
