

## Oxford City Schools Child Nutrition Program identiMetrics Privacy Policy

Biometric identification is an automated method of identifying a person based upon physical or behavioral characteristics. Our school has selected the identiMetrics System because it is secure, accurate, cost-effective and non-intrusive. You can learn more about the system at [www.identimetrics.net](http://www.identimetrics.net).

Prior to collecting biometric information from a student, the school district shall provide notification of the intent to do so to the parents, or the individual who has legal custody of the student, or to the student if he or she has reached the age of 18. At a minimum two weeks notification and the actual collection of biometric information shall be given in order to allow a response to refuse participation in the biometric identification program.

A request not to participate in the biometric identification program shall be made in writing by the parents, or the individual who has legal custody of the student, or the student if he or she has reached the age of 18.

Failure to respond with a request not to participate in the biometric identification program shall be considered as giving permission for the student to participate.

All biometric information shall be destroyed after (a) the student's graduation or withdrawal from the school district; or (b) upon receipt in writing of a request for discontinuation of participation in the biometric identification program by the parents, or the individual having legal custody of the student, or by the student if he or she has reached the age of 18.

The biometric information is to be used solely by the school district for identification or fraud prevention.

The school district will not sell, lease, or disclose any biometric information to any other person or entity.
